

(2) The number portability query-service charge may recover only carrier-specific costs directly related to providing long-term number portability that the incumbent local exchange carrier incurs to provide long-term number portability query service to carriers on a prearranged and default basis.

(b) All telecommunications carriers other than incumbent local exchange carriers may recover their number portability costs in any manner consistent with applicable state and federal laws and regulations.

[63 FR 35161, June 29, 1998]

EFFECTIVE DATE NOTE: At 63 FR 35161, June 29, 1998, § 52.33 was added. Paragraph (a)(1) contains information collection requirements and will not become effective until approval has been given by the Office of Management and Budget.

#### §§ 52.34–52.99 [Reserved]

### Subpart D—Toll Free Numbers

SOURCE: 62 FR 20127, Apr. 25, 1997, unless otherwise noted.

#### § 52.101 General definitions.

As used in this part:

(a) *Number Administration and Service Center ("NASC")*. The entity that provides user support for the Service Management System database and administers the Service Management System database on a day-to-day basis.

(b) *Responsible Organization ("RespOrg")*. The entity chosen by a toll free subscriber to manage and administer the appropriate records in the toll free Service Management System for the toll free subscriber.

(c) *Service Control Points*. The regional databases in the toll free network.

(d) *Service Management System Database ("SMS Database")*. The administrative database system for toll free numbers. The Service Management System is a computer system that enables Responsible Organizations to enter and amend the data about toll free numbers within their control. The Service Management System shares this information with the Service Control Points. The entire system is the SMS database.

(e) *Toll Free Subscriber*. The entity that requests a Responsible Organization to reserve a toll free number from the SMS database.

(f) *Toll Free Number*. A telephone number for which the toll charges for completed calls are paid by the toll free subscriber. The toll free subscriber's specific geographic location has no bearing on what toll free number it can obtain from the SMS database.

#### § 52.103 Lag times.

(a) *Definitions*. As used in this section, the following definitions apply:

(1) *Assigned Status*. A toll free number record that has specific subscriber routing information entered by the Responsible Organization in the Service Management System database and is pending activation in the Service Control Points.

(2) *Disconnect Status*. The toll free number has been discontinued and an exchange carrier intercept recording is being provided.

(3) *Lag Time*. The interval between a toll free number's reservation in the Service Management System database and its conversion to working status, as well as the period of time between disconnection or cancellation of a toll free number and the point at which that toll free number may be reassigned to another toll free subscriber.

(4) *Reserved Status*. The toll free number has been reserved from the Service Management System database by a Responsible Organization for a toll free subscriber.

(5) *Seasonal Numbers*. Toll free numbers held by toll free subscribers who do not have a year-round need for a toll free number.

(6) *Spare Status*. The toll free number is available for assignment by a Responsible Organization.

(7) *Suspend Status*. The toll free service has been temporarily disconnected and is scheduled to be reactivated.

(8) *Unavailable Status*. The toll free number is not available for assignment due to an unusual condition.

(9) *Working Status*. The toll free number is loaded in the Service Control Points and is being utilized to complete toll free service calls.

(b) *Reserved Status*. Toll free numbers may remain in reserved status for up
